MEETING OF AUGUST 6, 1935

Minutes of a Regular Meeting of the Board of Commissioners of Jersey City held on Tuesday, August 6th, 1935, in the Assembly Chamber, City Hall, Jersey City, N. J., at 10:30 A. M. Daylight Saving Time.

Present: Commissioners Fagan, McGovern, Potterton and Mayor Hague.

Absent: Commissioner Wolfe (excused).

RECEPTION OF BIDS

This time and place having been set and public notice advertised for the purpose of receiving proposals for the Furnishing & Delivering to the Department of Revenue and Finance, One (1) or more Addressing Machines and Appurtenances. The City Clerk read the notice of publication and then called for bids and the following were received:

ADDRESSING MACHINES

Addressograph Sales Agency, as per item, Surety Bond.

On motion of Commissioner Fagen the reception of bids was ordered closed and the bid received was opened and read and referred to General Purchasing Agent.

At this time Counsellor Alexander Simpson appeared before the Board and presented to each member of the Board drawings and preliminary studies of the proposed elevated airport in the vicinity of the mount of the Holland Tunnel. He stated that capital is ready and there is no thought of getting money from the government for the project; that his clients are seeking the approval of the Board of Commissioners; that he regards this project as the step for the City to get international prominence; that it will require an investment of approximate thirty-three millions of dollars and will give employment to a great many people. He set forth the many advantages that would accrue to the City.

The Mayor asked Mr. Simpson if the project could not be constructed without interference from Jersey City. He replied that Jersey City would have to give them a guarantee about interference in the streets; that Jersey City would have to get behind it as a City project and make arrangements about the taxing situation.

The Mayor then stated that the area involved is not built up at the present time, therefore it would be a great advantage to Jersey City having that terminal in that section; that it is an area that would ordinarily go for factory sites; that the only point Jersey City would have is the vacation of streets and that he does not think the tax question would enter in the matter at all; that the Commission has always assumed a policy where any enterprise or project is a substantial advantage to the City, that the taxing problem has been met; that the Board appreciates it's responsibilities and must get projects such as this, located in Jersey City, or any other project that will go to build up Jersey City and provide employment for our people.

Mr. Simpson stated that he knows the matter is not one that can be decided upon in a hurry because it is a vast project and requires long and careful planning.

The Mayor stated that he has discussed the street problem with Commissioner Fagen and the taxing problem with Commissioner Potterton and they agree that these matters will be properly taken care of.

In conclusion the Mayor advised Mr. Simpson that the Board will be glad to take the matter under advisement and go further into it with him or his clients. He also instructed Mr. Simpson to convey to his clients the fact that Jersey City through it's Board of Commissioners extends it's greatest encouragement to the project.

Whereas, it has been reported to the Board of Commissioners of Jersey City, by petition of John Lauria, and Maria Lauria, that they are the owners in fee simple of certain lands situated on 460 Fairmount Avenue, Jersey City, Hudson County, New Jersey, upon which there is erected a certain two-story one-family frame dwelling house known as Lot No. A in Block No. 1828, 460 Fairmount Avenue, Jersey City aforesaid, which encroaches upon the property of the city (West Side Avenue) in the following way:

At this time Counsellor Morris Barrison appeared before the Board with a delegation of North Boulevard Bus Owners:

By Mr. Barrison:

I have a committee here this morning representing the Northern Boulevard Bus Owners Association. These men have been operating buses on the North Boulevard in Jersey City, ever since 1916. Of course, some of the permits came later. Recently we applied to the various municipalities in the county and received permits in all other cities. We then applied to the Utility Commission for approval and Public Service appeared on the scene and raised technical objections to some of Jersey City's permits. Our men felt that they risked and suffered too much and they feel that a corrective resolution should be passed by Jersey City, so that there would be no question about the permits heretofore granted. Some of these men started in 1916 and 1917. Their only purpose this morning is to have a corrective resolution which may, or may not be necessary, but I don't think we should wait until the Public Utility Commission issues their edict and we now ask your Honorable Board to pass this corrective resolution. The Public Utility Board may grant us their approvals, but Public Service may take us into the Courts on these resolutions which may or may not be defective. We are just asking you to make secure the permission given by your Board over a period of years.

By The Mayor:

How long has this matter been pending?

A. For a long time.

Q. Five years?

A. At least.

Q. Did you state to this Commission that Public Service representatives have appeared before the Utility Commission and questioned the legality of these permits?

A. Yes sir, the legal forms of the Jersey City permits.

Q. And their contention is because of the fact that this Commission has never granted by resolution these permits, that they are illegally operating?

A. That is what it amounts to.

Q. How many busses are involved?

A. Sixty-three.

Q. And all of these men, their life-savings would be wiped out?

A. That is right.

Q. Do I understand that without this action, there is danger of these men losing their permits?

A. I would say there was, if there is a legal attack.

Q. And your application before us is to strengthen the position of these men?

A. Yes sir.

Q. We are all for that.

A. I have taken the liberty, because we have lost so much time, of preparing a curative resolution and I have submitted it to Mr. Hamill, the Corporation Counsel and he advises that the resolution remedies the condition.

By the Mayor:

I would recommend to the Commission that we approve of this application to reinforce the position of these sixty some odd men.

Q. What moneys are involved?

By Mr. Barrisson:

A. That is something we are not in a position to say, but these sixty-three men are making their living and their life's savings are involved.

Q. Their very existence is involved?

A. That is the only source of income.

Q. Do I understand that you wish to have this resolution adopted by this Commission?

A. Yes sir.

Q. Is that all you ask?

A. Yes sir.

Q. It means the security of these men

A. Yes sir.

Q. I would recommend the adoption of the resolution.

A. May I on behalf of these men, sincerely thank the Board of Commissioners for their kind cooperation.

By the Mayor:

A matter of such vast importance as this, is of vital importance to this Commission. It is true, for five years we have been listening to Counsellor Barrison and his associate counsel on the adoption of this resolution and I deferred and deferred. Now when the matter has reached a climax such as in this case where Public Service is coming in and asking for revocation of these permits, not alone would it work a financial crisis and hardship on these men, but on the general travelling public. Therefore, the Commission, because of their interest in the public and a square deal to these men, we have no hesitency in adopting this resolution for the protection of these men and the travelling public.

In conclusion the Mayor moved that the resolution be referred to Miscellaneous Business for further action. Seconded by Commissioner Potterton and carried.

By Mayor Hague:

Resolution of the Board of Commissioners of the City of Jersey City against the establishment of a foreign trade zone at Stapleton, Staten Island, New York, as proposed by the Honorable Mayor of the City of New York.

Whereas, The Mayor, as Director of Public Affairs, reports to this Board that application has been made by the Honorable Fiorello H. La Guardia, Mayor of the City of New York, for a federal grant to establish a foreign trade zone at Stapleton, Staten Island, New York; and

Whereas, It appears to this Board that the establishment of the zone at the proposed location would not serve the best interests of all concerned in that Stapleton, Staten Island, New York, is too far away from the territory within the Port of New York in which the bulk of the freight originates and arrives; and

Whereas, The proposed location is impracticable from the viewpoint of both time and expense for the leading shipping lines to dock their vessels, in that it would necessitate unnecessary towing charges both to and from the zone to the heart of the harbor; and

Whereas, The proposed territory is served by only one railroad trunk line, which makes the location most inaccessible and practically isolates it from all other railroad lines serving the habor;

Be It Therefore Resolved, That the Board of Commissioners of the City of Jersey City do hereby protest against the establishment of the Foreign-Trade Zone at Stapleton, Staten Island, New York, proposed by the Honorable Fiorello H. La Guardia, Mayor of the City of New York; and

Be It Further Resolved, That the attention of the Examiners Committee of the Foreign Trade Zones Board be called to the advantages of the City of Jersey City, with its large waterfront area, its huge railroad terminals and facilities, its complete geographic position, which makes it the very heart of the metropolitan area, and further makes it the most advantageous location which could be chosen as a free port zone; and

Be It Further Resolved, That copies of this resolution be forwarded to the Secretary of Commerce, as Chairman of the Foreign Trade Zones Board, the Secretary of the Treasury, the Secretary of War, as members of the Foreign Trade Zones Board, and to United States Senators A. Harry Moore and W. Warren Barbour.

At this time Mr. James Hamill, Corporation Counsel, appeared before the Board with Mr. Keady and Counsellor Underwood of the United States Gypsum Company.

Mr. Hamill stated that the Law Department has drafted and is now ready to present a lease for certain properties located in the South Cove section of Jersey City; that on the property which is the subject of the present lease there are at present two leases pending; that the lease involves the rental of 137,000 square feet; at the present time 100,000 square feet is rented at five cents a square foot for a period of ninety-nine years and the remaining 37,000 square feet at the rate of three cents per square foot, per annum in each case; that on account of the certain objections which he has indicated to the proposed lessee, the United States Gypsum Company, they are willing to cancel the lease for ninety-nine years made with this City and to take in its stead a lease for fifty years covering the 100,000 and the 37,000 square feet; that the new lease gives the City five and three-quarter cents per square foot, a very great increase in the rental; that the Gypsum Company thought the rent was high, but the City, I pointed out to them, that we thought as were were dealing with trust property, we ought to get the highest rental the property could stand, and they acceded to our view; that not only that, the lease is subject to readjustment after twenty years, and if five and three-quarters is not enough, then we have the right to raise it by arbitration, to raise the price twenty per cent larger per square foot, than the five and three-quarter cents; that this matter has been the subject of discussion with the Mayor and the Commissioners on numerous occasions, and the Mayor has instructed the Law Department to do all in it's power to encourage industry in this city and bring work to our population, and at the same time to remember that the City's interests were to be fully protected; that he believes that they have met the Mayor's views in the lease his department has prepared and which he now presents to the Board.

Counsellor Underwood then introduced Mr. Keady, who, he stated, is in charge of the manufacturing plants in this country and is better fitted to give the Commission the information regarding their organization.

Mr. Keady explained in detail the facts concerning his organization, stating that his company is in the building material business and operates fifty plants in the United States and Canada and covering twenty-four of the forty-eight States; that the principal products are gypsum products, plasters, wall boards, tiles, etc., acoustical products, insulation products, roofing materials, metal lath and ceiling construction lath; that the principal point of interest here is their manufacture of roofing products; that their manufacturing of roofing products brought them to the interest in the National Roofing Company, the National Asbestos Company on the proper under lease at South Cove; that in their business freight is a very important factor, their products being very heavy and the margin of profits relatively narrow, and economy is something that they must give attention to; that this proposed location serves well as a distribution point for metropolitan New York; that a very substantial part of their products must go by rail; that there are other properties they could use, particularly one in Harrison, and, of course, there are many vacant properties, but they are very frank to say that the National Asbestos plant is more favorable and can be taken immediately.

By Mayor Hague:

Mr. Keady, did you visit other sites? A. Yes, sir; we have a plant laid out on our Harrison property.

Q. You had under consideration numerous sites? A. Yes, sir. Harrison as well as other locations.

Q. But you prefer this site? A. Yes, sir. Because we can immediately start operations, subject to our approval of the lease; that the lease is subject to their acquiring the property, and they are asking for protection for a term of years. We have some eight thousand stockholders to consider, and we are only the trustees, whereas the National Asbestos Company is a family-owned affair, and they can do as they wish. We could not and would not under our corporate set-up, make these investments which, over a period of years, involve a million dollars, without proper protection of their interests. About employment, the plant currently employs about two hundred. We naturally expect to expand within a short time, and we should increase the employment about fifty per cent and eventually to five or six hundred. We follow the custom of using local labor. We ask for no smile of approval on that; it is just "horse sense."

By the Mayor:

That was one of our principle conversations. I said to you, that it was necessary I get some assurance from you that would employ local people where possible, unless you had to get certain skilled labor which you could not obtain here.

By Mr. Keady:

Local labor will be employed with the exception of that certain skilled labor which does not happen very often. Quite unknown to you, we have made an investigation of labor conditions and general welfare of the people in Jersey City and we are quite satisfied from our investigation that we should have a very happy time in our operation; some of the facilities in the city are quite important to us. We do get our best results from happy employees. We do try to preserve their health and keep them in good hpysical condition. The availability of the hospital where they can be cared for and given proper attention. I have visited the hospital here and I have never seen anything finer. Of course, in troublesome times, the efficiency of the Fire Department and the Police Department are very important factors. Now, if there are any questions you gentlemen would like to ask, I will be happy to answer.

By the Mayor:

Your remarks are very complimentary. I want to assure you that we welcome you here and gladly welcome other industries to locate in Jersey City. Your interest, is our interest. If you are a taxpayer in Jersey City, we always try to make things as pleasant as we possibly can. We have always tried to co-operate in all types of difficulties and controversies between industry and employees. As to the former leases, during our discussion, you raised strenuous objections to the clause that allowed the city to go in and take it over within one year. That is a sound objection. As to the number of employees, you assured the Mayor as the representative of the Commission, you thought the development within a short time would double the present number of men or probably beyond that. I asked you then if you could consider it as your Eastern headquarters and you answered that it depended entirely upon what the surroundings and conditions were. I am quite sure that it will be satisfactory. The Commission feels that your objections to the former lease are sound because you have to report back to your stockholders and the lease as prepared by the Corporation Counsel will be satisfactory to your people. Jersey City is an industrial centre with its railroads and waterfront and its future is very bright. It is unfortunate that the depression set in just at the time the city was rapidly going ahead. If the Commissioners have no further questions or objections to the lease, the Commission will vote on the lease so that these representatives may go back to their officials in Chicago and report back that everything they said about Jersey City is true. Mr. Keady are you prepared to execute this lease immediately? Mr. Keady replied that he was.

Mr. Underwood stated that they are ready with the exception of having to forward the papers to the President and other officers of the company.

Mr. Keady assured the Board there would be no delay.

Mr. Underwood stated that they will set the matter in motion at once and on behalf of the company he would like to express their appreciation for the courteous treatment accorded them by the officials of the City; that the Law Department and all other departments contacted have offered their assistance and kind co-operation.

Thereupon, Mr. Hamill submitted the following resolution and the Mayor moved its adoption. Seconded by Commissioner McGovern and carried.

By Mayor Hague:

Resolved, That the lease this day presented by the Director of Parks and Public Property between the City of Jersey City and the United States Gypsum Company, a corporation of the State of Illinois, whereby the City leases a tract of land in the South Cove grant more particularly set forth in said lease, to the tenant for a term beginning upon the surrender of the present leases thereof held by the National Asbestos Manufacturing Company, and expiring fifty (50) years from the date hereof, a copy of which lease is annexed hereto, be and the same is hereby approved, and that the proper officers of the city are hereby authorized and instructed to execute the same on behalf of the City of Jersey City on the passage of this resolution.

From Director Wolfe, advising revocation of license of Joseph Martino, 224 Monticello Ave., for violations of rules and regulations.

Received and recommendations concurred in.

From Director Wolfe, recommending Plenary Retail Distribution License be granted to Ida Goldfarb, 2718½ Hudson Boulevard.

Received and recommendations concurred in.

From Director Wolfe, recommending that a Plenary Retail Distribution License be granted to the 218-220 Market St. Corporation at 50 Journal Square, attaching resolution confirming the recommendation.

The City Clerk read the report and resolution and prior to the roll call, Counsellor John Meehan appeared before the Board and objected to the granting of the license and urged the Board to fix a limitation on the issuance of any further licenses. He stated that in this immediate vicinity there are twenty-seven licensees and that there is no public necessity for any additional licensees. He stated that he represented the Combination Liquor Merchants of the State of New Jersey, made up of delicatessen stores and grocery stores and drug merchants.

Mr. Markowitz, representing the Liquor Stores Assn., also protested the granting of the license.

Mr. Gus Fricke, representing the Jersey City Liquor Dealers and the Retail Consumption Licensees, protested on general principles allowing any more licenses.

Counsellor Victor Ruskin of 921 Bergen Avenue, appeared for the applicant and stated that the applicant is a large corporation now engaged in the City of Newark and conducts one of the largest package stores in the City; that they are reliable, and sell their products to the public at prices that meet with the satisfaction of the people; that the objections are filed by liquor dealers and not by residents of the City of Jersey City; that there are no churches or schools in the neighborhood to object; that there is only one package goods store about 300 feet distant and the other stores are combination, drug stores, grocery stores, etc., with liquor only as a side line; that the applicant distributes in the City of Newark approximately one thousand Christmas Baskets to the needy and never has there been a charge against them for any violations; that he has the liberty of speaking for the landlord of the premises in question, The Trust Company of New Jersey; that they have never been able to rent that building at a proper rental and certainly the tax payer has the right to rent that store for any possible income; that he does not think there is any legal objection to the granting of the license.

By the Mayor:

The Commission has conferred on this application at the suggestion of Commissioner Wolfe. You know the old method of selling these licenses when we limited the number. They were selling at large price and large profits. The officials were considerably disturbed over the matter. If we set a certain number we are going to find we will be back on the same old method of agents walking around with three or four licenses, peddling them. How are we going to work against that? We cannot set ourselves up and occupy a position that we are going to simply say when and how we are going to stop, we are discriminating, and we are permitting certain groups to have a liquor monopoly.

By Mr. Meehan:

Under the Control Act, the sole power rests with this Commission.

By the Mayor:

You understand what we are disturbed about. It was common practice for the brokers to hold ten or twenty-five licenses and go out and peddle them. Commissioner Fagen informs me that the brokers held all but twenty-five licenses when he was City Clerk. Mr. Ficke knows what I speak about.

By Mr. Meehan:

Under the terms of the Act now it is impossible for brokers to be connected with any licenses directly or indirectly. There was no provision in the law at that time.

By the Mayor:

Here is a legitimate applicant. Here is a man absolutely without any charges against him, who stands before us as a clean applicant and has a good record. There is no violation of any laws filed against him. No objections other than there are too many licensees. If one property owner on one corner is given the right to rent his property for a liquor store, why do you hold back the man on the other corner. You see what we are going to be confronted with? I think the proper procedure for us to follow in this application is to leave the matter on the table for a later date and we will give Commissioner Wolfe the right to determine on his report. He recommends it. You are putting us in a very embarrassing position. We want to decide the question, but if there is any merit in your argument, if there are too many saloons in that particular neighborhood and groups coming in depriving men who have invested their life savings, I don't think this Commission wants to permit anyone who has put up his life's earnings and savings to be destroyed and put out of business.

By Mr. Ficke:

It will be done sooner or later when limitation will have to be put on.

By Mr. Ruskin:

If we are to limit liquor stores, we might as wll limit the grocery stores, delicatessen stores and other stores.

By the Mayor:

We will defer the matter for a later date. We will not take final action today. And so moved. Seconded by Commissioner McGovern and carried.

MISCELLANEOUS BUSINESS

By Commissioner Fagen:

Whereas, The recent snow storm of January 19th last was of such magnitude and severity as to make it imperative that extra work would have to be performed to remove the same, and extra vehicles besides those owned by the City rented to help in the removal of the snow; and

Whereas, The cost of the removal of the snow, when it becomes of such magnitude to require extra man-power and extra truckage, is of such uncertain occurrence and varies in such depth that it would be mere guesswork to attempt an estimate for yearly budget; and

Whereas, It is the opinion of the Board of Commissioners, upon the recommendation of the Director of the Department of Public Works, that an emergency should be declared and a maximum amount be appropriated to cover the cost of removal of snow from January 19th to January 27th, 1936, inclusive, at a figure of not more than $18,000; therefore, be it

Resolved, That in the opinion of this Board the snow storm of January 19th was of such magnitude that it created such an emergency as contemplated by the Statutes of New Jersey in such case made and provided, and that to cover the cost of the removal during the period of the snow storm the sum of $18,000 as a maximum be and the same is hereby appropriated.

Whereas, The Hudson County Board of Chosen Freeholders have requested the closing of Tonnele Avenue Bridge, over the Pennsylvania Railroad, just south of its intersection with West Newark Avenue, for the period of its construction, as directed by the Board of Public Utility Commissioners, by recent order directing its reconstruction; and

Whereas, Federal funds are to be used for this reconstruction and the amount so allotted will not permit of the construction of a temporary detour, and it is deemed that the ultimate benefit to be derived from this newly constructed bridge will far outweigh the temporary inconvenience that will follow the closing without the construction of a temporary detour; and

Whereas, Tonnele Avenue being a County Road and under the jurisdiction of the Board of Chosen Freeholders of Hudson County, the said Board has requested Jersey City to authorize the closing of Tonnele Avenue between Broadway and West Newark Avenue during the period of the reconstruction; therefore, be it

Resolved, That pursuant to the request of the Hudson County Board of Chosen Freeholders, who were notified of an order of the Public Utility Commissioners of the State of New Jersey, directing the reconstruction of Tonnele Avenue Bridge, just south of West Newark Avenue, Jersey City, the Board of Commissioners of Jersey City authorize the closing of Tonnele Avenue, between Broadway and West Newark Avenue, during the period of reconstruction, without the building of a temporary detour because sufficient money has not been allotted by the grant of Federal funds for this purpose.

Whereas, The responsibility of providing relief of various kinds insofar as it must be done out of public funds is the responsibility and function of Municipal Government, and

Whereas, The City of Jersey City, in the County of Hudson, in the State of New Jersey, finds itself unable to entirely meet such responsibility because of its loss of revenue through the falling off of tax payments and the failure of other sources of income and the inability to further reduce its operating costs, and

Whereas, Funds have been made available by the State Legislature, Federal Government and from other sources to the Director of Emergency Relief to be used by him in supplementing the relief by such municipalities as are financially unable to adequately provide such relief, and

Whereas, The estimated cost of emergency relief for 4,775 families, consisting of 20,360 persons, during the month of February, 1936, will be $199,496.

Now, therefore, be it Resolved by the Board of Commissioners of the City of Jersey City, in the County of Hudson, in the State of New Jersey, That application is hereby made to the State Director of Emergency Relief for financial aid by way of a Modified "A" Grant, in accordance with provisions and conditions of the Rules and Regulations of the Emergency Relief Administration, in the amount of $199,496 for the purpose of carrying out such emergency relief program during the month of February, 1936.

And be it further Resolved, That the City of Jersey City will furnish as its share, the amount of $10,504 plus the administration, consisting of the personnel of the Overseer of the Poor, the rental of five Relief Stations, the Counsel and Staff of the Rent Relief Bureau, Staff of the Municipal Director, medical care, maternity case and hospitalization, except those surgical supplies as may be ordered and approved by the State Director of Emergency Relief.

And be it further Resolved, That four certified copies of this resolution be sent to the office of the County Director of Emergency Relief for forwarding to the proper officers of the Emergency Relief Administration.

On Tuesday, January 7, 1936, the Board of Commissioners received the recommendation for the granting of plenary retail distributor's license to the 218-220 Market Street Corporation, at 50 Journal Square, from Commissioner Thomas J. Wolfe, Director of the Department of Public Safety, together with a copy of the testimony taken at the hearing, in the matter of the application for said license.

The Commission has examined into the matter and it appears that at the hearing on the protest filed against the application of the 218-220 Market Street Corporation, for a retail distributor's license at 50 Journal Square, that these protests were based not on any attack against the character of the applicant or on the suitability of the premises, 50 Journal Square, for a package goods store, but rather on the competition and lower prices which this particular applicant would bring into Jersey City.

There is no package goods store on the West side of Journal Square. The policy of this Board has always been against monopoly and in favor of free and fair competition, especially so when it brings lower prices to our citizens. The objections to this license are grounded, not on lack of social desirability, but rather upon the economic question of competition and selling at lower prices than now obtained.

Our function as an issuing authority is to decide questions pertaining to control of the liquor traffic, which means cleanness, decency and compliance with law and not to questions of economics and the fixing of prices or keeping them high.

We are of the unanimous opinion that the license should be granted so long as the rules and regulations concerning alcoholic beverage control are strictly complied with; therefore, be it

Resolved, That the recommendation of Commissioner Thomas J. Wolfe be concurred in and that the Board of Commissioners of the City of Jersey City do hereby authorize the issuance of a plenary retail distributor's license to the 218-220 Market Street Corporation for the premises 50 Journal Square, to take effect immediately.

Whereas, This Commission recalls with pride and gratitude the noble and public spirited part performed by the late John F. Boyle while a member of the New York and New Jersey Bridge and Tunnel Commission and a Member of the Port of New York Authority during the construction of the Holland Vehicular Tunnels and of the approaches to these tunnels in Jersey City; and

Whereas, The noble work of Commissioner Boyle resulted in the saving to the City of Jersey City of great sums of money involving hundreds of thousands of dollars which would have been lost to the City except for the ability and energy which he persistently displayed; and

Whereas, The services which he rendered to the City of Jersey City were generously given without reward or compensation of any kind and represent one of the finest contributions of loyalty and fidelity to the public interest in recent years, these services constituting a real and devoted sacrifice of time, energy and ability inspired solely by a profound and sincere regard for the welfare and advantage of his fellow citizens of Jersey City; and

Whereas, It is the sense of this Commission that some tangible and enduring monument should be established to attest the gratitude and affection of this Commission and of the people of Jersey City for the memory of John F. Boyle; and

Whereas, It is the judgment of this Commission that nothing could serve more suitably as a monument to attest his high and noble endeavors than to impress his name upon the great plaza which forms the exit from the Tunnel in Jersey City, and which his labors made possible; therefore be it

Resolved, That this Commission does hereby request the Port of New York Authority to dedicate the said plaza forming the exit from the Holland Vehicular Tunnel on the New Jersey side along what is now known as Fourteenth Street, Jersey City, up to Jersey Avenue, to the memory of the said John F. Boyle by naming and designating the said plaza as Boyle Plaza; and be it further

The City Clerk read the following call for the special meeting:

OFFICE OF THE MAYOR
May 21, 1936.

Hon. Eugene Ertle,
City Clerk, City Hall,
Jersey City, N. J.
Sir:

This is to advise you that I have this day called and do hereby call, a special meeting of the Board of Commissioners of Jersey City, to be held on Friday, May 22, 1936, at ten o'clock in the morning, Daylight Saving Time, in the Assembly Chamber, City Hall, Jersey City, for the purpose of taking action on the bids received by the Board of Commissioners on May 19, 1936, for the construction of Medical Center Buildings, and such other business as may properly come before the Board at this meeting.

Kindly arrange for said meeting.

Very truly yours,
(s) FRANK HAGUE,
Mayor.

The City Clerk then read the following notice sent to each Commissioner:

OFFICE OF THE CITY CLERK
May 21, 1936.

Dear Sir:

This is to advise you that the Mayor has called a special meeting of the Board of Commissioners for Friday, May 22, 1936, at 10 o'clock A. M. Daylight Saving Time, in the Assembly Chamber, City Hall, Jersey City, N. J., for the purpose of taking action on the bids received by the Board of Commissioners on May 19, 1936, for the construction of Medical Center Buildings, and such other matters as may properly come before the Board at this meeting.

Kindly arrange to be present.

Yours very truly,
(s) EUGENE ERTLE,
City Clerk.

Following the reading of the call, the Mayor directed the City Clerk to call the roll. The roll being called, the Mayor declared the meeting open and requested the City Clerk to proceed with the matters before the Board.

Mr. John T. Rowland, Architect, appeared before the Board and stated that the bids received by the Board of Commissioners of Jersey City on May 19, 1936, for the construction of the new Medical Center Buildings (PWA Docket No. NJ 1075R), were referred to him and the officials of the PWA for review and examination; that the bids have been reviewed and it is his opinion that the contracts for said work should be awarded to the following contractors at the prices named in their bids as follows:

Group 1—E. M. Johnson, $1,117,000.00, including elevators and dumbwaiters of the Otis Elevator Company, at $139,300.00, making a total general construction contract at $1,256,300.

Group 2—Lehigh Structural Steel Company, $271,267.00, structural steel and ornamental iron.

Group 3—W. W. Farrier Company, $229,648.00, plumbing work.

Group 4—Frank P. Farrell, $110,188.00, heating and ventilating work.

Group 5—Jos. Newman, Inc., $169,750.00, electrical work.

Mr. Rowland stated that in each case these are the lowest bids received for said groups of work; and that said awards must be subject to the approval of Col. C. C. Vermeule; that he would recommend the adoption of the resolutions by the Board of Commissioners for said awards and directing the Corporation Counsel to have the necessary contracts prepared.

The Mayor moved that the recommendations of Mr. Rowland be concurred in. Seconded by Commissioner McGovern and carried.

At this time Mr. Rowland presented a letter addressed to the Board of Commissioners of Jersey City, from E. M. Johnson, which stated that because of an error in his bid for Group 1, General Construction Work New Medical Building, having neglected to include the sum of $32,000.00 for hoisting engineers and equipment and temporary elevator service, also part of the clerical help required to cover the administration of the work and the reports required, further that his doctor advises him that in his present condition of health, he should not attempt work of this magnitude, further that he is an individual and not a corporation, that the contract be not awarded to him and that he be relieved of the obligation.

Mr. Rowland stated that he cannot say anything about the bid, but he does know that the man is in very bad health.

The Mayor then asked if the Board of Commissioners had any authority in the matter and Mr. Rowland replied that the Board has no authority, but the P.W.A. has.

The Mayor stated that he could not ask this Commission to vote to relieve Mr. Johnson and that he will have to apply to higher authority than this Commission; that the bid is an official bid; that the government men sat here and approved the bid; that in the absence of the government, what position does that place the Board of Commissioners in; that there would be criticism; that in his opinion, the contract should be awarded as recommended; that his certified check is on file; that there is no choice for the Commission; that the moment the Commission grants this request, the taxpayers would resent it and the matter would be certioraried; that he would suggest Mr. Rowland notify the bidder by letter that the matter was taken before the City Commission and the City Commission could not recognize the communication and if he has any redress he can go to the government authorities; that if the government authorities want to relieve the bidder, it will then go to the Law Department for the necessary papers to be prepared; that it is a question of law and it will have to be referred to the Law Department.

Mr. Rowland then asked if he should report the case of the P.W.A., and the Mayor advised him so to do and take a copy of the letter to government headquarters and also advise them of the Commission's action; that it is a shame for people like this to come in and bid because it will create unnecessary delay and require additional readvertising.

Mr. Rowland stated that in fairness to the bidder he must say that the man has a serious heart condition and is pretty bad physically.

In conclusion the Mayor replied that the Commission has no objection to the request but we are now calling a special meeting for action on the bids trying to save unnecessary delay. He then moved that the communication from E. M. Johnson be referred to the Corporation Counsel for conference with Mr. Rowland. Seconded by Commissioner Fagen and carried.

PETITIONS AND COMMUNICATIONS

From L. C. The Commission discussed the petition and the Mayor moved that it be referred to Commissioner Fagen for investigation and report. Seconded by Commissioner McGovern and carried.

There being no further business before the Board, Commissioner McGovern moved that the Board adjourn.
